## Course:

Most of the shore of Lake Nokomis is ringed by a paved pedestrian trail within a paved bicycle trail. The triathlon 10k run is two CCW loops around Nokomis. Start SW on the pedestrian trail S of the large parking lot, switch to the bike trail after crossing Cedar Ave, curve S and then back to Cedar, then leave the trail and turn N (left) on Cedar, turn around on the Cedar bridge and return S. Turn E (left) on the bike trail, curving around the lake to S 22<sup>nd</sup> Ave. Shortly after S 22<sup>nd</sup> Ave cross the grass to the pedestrian trail, over the bridge, past the beach, and continue past the start line. On the second loop, follow the same path except do not cross over to the pedestrian trail just past S 22<sup>nd</sup> Ave but continue on the bike trail and then onto the road at the masonry bridge, to finish just past the bridge.

## Measured Points:

- Finish:** W Lake Nokomis Pky at crack in curb adjacent 3<sup>rd</sup> lamp post SW of masonry bridge. Marked w dot & "F."

**Race Director:** A cone is required at the turn around. Volunteers will be needed at the crossover and at Cedar Ave (at least two places) to direct runners. The course was measured using the shortest path that a runner could take while remaining on the trail. The map may not be to scale, and the trails have more curves and intersections than shown. Miles are marked with a dot and a digit, all marks are yellow paint.
